Money Saving Tips

Exhibits

- Consider buying a pre-owned exhibit
- Consider renting an exhibit
- Negotiate a discount with exhibit house for upfront payment
- Shop material options – matte graphics panel vs. high gloss

Graphics

- Design strategically – strive for 10-20% of show-specific messaging, re-use remaining graphics
- Consider a freelance designer/ animator and stock photos
- Price out graphics to local advertising or sign shops
- Switch to digital signage

Show Services

- Read the exhibitor service kit. Pay careful attention and meet all deadlines
- Order booth accessories and services in advance
- Look for early-bird registration
- Bring your own supplies, such as electrical tape, surge protectors, cleaning supplies, trash cans, etc.

Staffing & Travel

- Don't bring too many staffers – rule of thumb is 1 staffer per 50 square feet (or 2 for a 10x10 exhibit)
- Reward frugality – to encourage staffers to spend less, offer a percentage rebate to those who stay under their allotted per diem

Audit Invoices!

Common errors:

- Missed early bird discounts
- Incorrect multipliers, such as rate per hour for electrical, or straight vs. overtime rates for labor, or incorrect square footage of your exhibit
- Charges for supplies you brought yourself.

Promotion

- Take advantage of show advertising packages when available
- Order promotional items and giveaways well in advance to avoid rush fees and expensive shipping costs
- Print all your pre-show and at-show marketing materials at the same time to get quantity discounts
- Promote your participation using low-cost marketing methods, such as social media, your website, submitting press releases

Installation & Dismantle

- Skip the rigging – talk with your exhibit designer to see if you can use up lighting to illuminate your overhead elements
- Number your crates according to content, attach a diagram and include detailed construction instructions, along with electrical requirements and repacking instructions
- Avoid weekends and overtime- try to negotiate with show management to install your booth on a weekday if possible.

Transportation

- Switch to models – if you have heavy products, consider a lightweight 3-D model or digital models
- Use double-duty components – some crates can be repurposed as desks/tables
- Store strategically – if you have multiple shows in the same city/region, store some of your properties near that area
- If you do several shows, use the same freight carrier and negotiate volume discounts
